// SUMMARY

Data scientist and AI/ML engineer who **ships** — and **wins**. On **Team Machima** in Super AI Engineer S6, I helped take **1st place in two hackathons**: a Jetson Nano edge-AI transport system (where I led the data team, ~18 FPS) and an enterprise data agent (agentic AI + OCR), plus a CatBoost demand-forecasting model (**WMAPE 8.85**) and a special-award AIoT wellness device. Six years across graphic design, IT, and full-stack web give me unusual range — I see every system as both a daily **user** and the **engineer who builds it**. Open to **internship (LV. 3)** and junior **Data Scientist / AI Engineer** roles.

// AI / ML HACKATHONS — SUPER AI ENGINEER S6 · TEAM MACHIMA (2× WINNER)

Enterprise Data Agent — FahMai Finale · WINNER BOL × NCSA · Jun 2026
Won the Enterprise Data Agent Showdown: an **agentic AI + OCR** system that extracts data from enterprise documents (statements, receipts) and answers questions over it — judged on OCR accuracy, model evaluation, system design **and cybersecurity**. Human-in-the-loop routing: 95% auto / 5% checked, **>99.2% field accuracy**.
Stack: Agentic AI · PaddleOCR · LLM extraction · RAG · vector DB · HITL

Edge AI · Intelligent Transport — NT · WINNER · Data Team Lead AIAT × NT
Real-time vehicle detection across **10 live CCTV** on Jetson Nano: **7,900+ labeled images** (30 classes), YOLO26n pre-labeling + Roboflow QC. Optimized PyTorch → ONNX → TensorRT FP16 to **~18 FPS (~6× speedup)**.
Stack: YOLO26n · MobileNetV3-S · TensorRT FP16 · CLIP · Roboflow · Jetson Nano

Demand Forecasting — Expresso team of 6
Owned deep EDA + feature engineering (lag/rolling, cyclical calendar, store, KMeans). **CatBoost WMAPE 8.85**, beating XGBoost (9.23) and ARIMA (18.4).
Stack: CatBoost · XGBoost · ARIMA · pandas · time-series · KMeans

WellSense AIoT · "Sip" Wellness Monitor — Special Award Qualcomm × iMake × Chula Med
Judges' Favorite award for an edge-AIoT hydration/wellness device on **Arduino UNO Q + 8 sensors (BLE)**: real-time data pipeline, rule-based intelligence engine, and a live dashboard with LED-matrix GOOD/MID/STOP feedback.
Stack: Arduino UNO Q · C++ · Python · BLE · Supabase · ultrasonic/gyro/temp/EEG sensors

// FULL-STACK & AUTOMATION (LIVE)

Smart ERP (Mini-ERP) for SMEs live demo + GitHub
Web ERP: PR → PO → GRN with real-time stock, Quotation → SO → DO with delivery links, role-based approval center. Django 6 · DRF · JWT · PostgreSQL · Vue 3 · Tailwind

SabaiBill — Document Management live demo + GitHub
Sales-doc app (QT → SO → DO → IV) with auto VAT/WHT, 1-click PDF export, Thai/English bilingual.
React · Node.js · Prisma · PostgreSQL

Parcel-Tracking Automation & E-commerce Make.com
LINE → OCR → parse → Google Sheets → auto-reply; cut per-parcel handling **~4 min → <30 sec (~85%)**. Also built live stores (CJP Frozen Food, Yuki Pepper) with LINE API alerts.

// WORK EXPERIENCE

Freelance Web & AI Developer Mar 2025 — Present
Build full-stack systems, e-commerce, and OCR/automation pipelines; integrate AI into client workflows.

Content Moderator — Transcosmos (Thailand) Oct 2024 — Mar 2025
High-volume content review & classification against guidelines — the human analog of running a classifier.

Graphic Designer — ZEA Management 2021 — 2023
Brand, print & digital design — the visual eye I bring to every dashboard and UI.

IT Support — Siam Herb Product 2019 — 2021
Software, hardware & network setup; methodical debugging of production issues.

// SKILLS

Data Science & ML
Python · pandas · NumPy · scikit-learn · XGBoost · CatBoost · feature engineering · EDA · time-series forecasting · model evaluation

Computer Vision, Edge & IoT
YOLO (YOLO26n) · MobileNetV3 · CLIP · TensorRT · Roboflow · PyTorch → ONNX → TensorRT · Jetson Nano · Arduino UNO Q · C++ · BLE · sensors

LLM & Generative AI
RAG · semantic chunking · vector DB · LangChain · agentic pipelines · prompt engineering · OCR (PaddleOCR) · HITL

Web & Backend
Django · DRF · Vue 3 · React · Node.js · Prisma · PostgreSQL · Supabase · JWT · REST API

Automation & Tools
Make.com · LINE API · Google Sheets · Git · Cursor · Windsurf · Claude Code

Docs & Design
Markdown (.md), READMEs & prompt files · Adobe Creative Suite · Figma

// CERTIFICATIONS

Super AI Engineer S6 — LV.2
AIAT · LV.1 completed, LV.2 in progress (13-course AI curriculum)

Huawei HCCDA — AI & Tech Essentials
+ TPQI AI/Cloud certification (S6 camp)
valid until Apr 2029

Data Science Job Simulation
EDA → feature eng → modeling → insights · May 2026

AI Ready ASEAN · TOEIC 590
ASEAN Foundation × Google.org · 2024

// EDUCATION

B.Sc. Multimedia Technology & Animation
Mae Fah Luang University — IT & Communication

Language Program
ValuePoint Academy, Pune, India
2018
